

CybTouch 8 W For Shears

Jobouch

to mm

The Intuitive Programming

Specifically intended for sheet-metal cutting, CybTouch 8 W is a high performance numerical control designed to control swing shears.

As part of the CybTouch range, it possesses the same intuitiveness in its vividly colored touch screen, and an equally high integration of functions.

Thanks to its interactive touch software interface with large keys, on-line help, and many other automatic functions to constantly guide the operator, CybTouch 8 W is as simple as a "go-to controller".

CybTouch 8 W is available as a robust panel ready to be integrated, or can optionally also be delivered mounted into a sleek and modern housing specially designed to be attached to a swiveling arm.

Easy Operating

- High-contrast touchscreen, with vivid colors.
- Simple pages, large keys, clear display with all the information the operator needs.
- Intuitive and user-friendly interface.
- Complete programming of parts in seconds.
- Quick set up of the machine with the *EasyCut* page.
- Contextual help and warning pop-up.

Better Cutting

- Automatic calculations of the shear functions upon material specifications.
- Automatic blade gap.
- Automatic back gauge correction.
- Automatic back gauge foldaway.
- 2/3- position sheet support.
- Return to sender function (RTS).
- Front or back gauge management.
- Parking position (foldaway function).
- Hold-downs pressure management.
- System pressure management.

Powerful

- Large cutting sequences and programs can be memorized.
- Easy communication via wireless connection to a laptop computer.
- Over 10 languages available.

Easy operating, better cutting and powerful features all characterize CybTouch 8 W
